

## Parker Animal Hospital Partial Script

### **Statement #1**

Thank you for calling Parker Animal Hospital where your pets ARE our business. We are conveniently located at 11701 S. Parker Road, just 1/3 of a mile south of Lincoln. Clinic hours are Monday through Friday 9:00 AM till 6:00 PM and 9 till 1:00 on Saturday. Our furry clients are important to us and we will be right back on the line to assist you personally.

### **Statement #2**

Having trouble getting a few pounds off of Rover? Is he still hungry after eating his food for the day? Try green beans or baby carrots as a snack. Just drain and rinse a can of green beans and feed them as a low calorie alternative to dog treats. They will be begging for more. Green beans are also a sneaky and healthy way to give pills as well.

### **Statement #3**

Ask your Veterinarian about scheduling an annual checkup and exam. Just as we are encouraged to get an annual exam, many underlying conditions or problems can be detected and treated early on in your pet before they may become serious. We may find tumors, heart conditions, eye, ear and dental problems. Waiting 1 year for your check up is like Rover waiting 7 years for his. And if your pet does anything that is out of the ordinary, they are trying to tell you something. Get them in as soon as possible. After all they are a part of the family.

### **Statement #4**

Winter is here and the ice and snow conditions can cause injuries to your pet that CAN be avoided with a little extra precaution. For instance; always look to see that there are no anti-freeze leaks from your vehicle that your pet may ingest. This is toxic to animals and can kill them. In the unfortunate event they do swallow the anti-freeze before you catch them please call us immediately and bring them right in. We appreciate the trust you place in Parker Animal Hospital and will be right back to assist YOU personally!
